

SISTEM PELAPORAN PELANGGARAN	WHISTLEBLOWING SYSTEM
Demi memastikan pelaksanaan pengendalian internal dan kegiatan usaha yang sehat serta berkelanjutan, Goodyear Indonesia membentuk sistem pelaporan pelanggaran ( <i>whistleblowing system</i> ) sebagai alat komunikasi antara karyawan dan Direktur Utama untuk melaporkan indikasi-indikasi kecurangan atau pelanggaran kode etik di Perseroan.	In order to ensure the implementation of healthy and sustainable internal controls and business activities, Goodyear Indonesia established a whistleblowing system as an instrument of communication between employees and the President Director to report the indication of fraud or violation of the code of ethics in Goodyear Indonesia.
